

GYES[®]

OUR STORY

Founded in 2022 in Dilovası, Kocaeli—just 30 minutes from Istanbul—GYES Firearms was born with a singular mission: to provide shooters with reliable, mission-ready tools at an unmatched value.

What sets us apart is our unique connection to the Poligun Shooting Range, where we've gathered invaluable feedback from users who've handled nearly every type of firearm available. This direct insight into what shooters need and expect has shaped the design of our pistols, ensuring they meet real-world demands with precision, ergonomics, and durability—qualities often reserved for high-end brands.

Recognizing the gap in the market for premium-quality firearms that remain accessible, our team combines industry expertise with advanced technology to craft pistols that deliver exceptional performance without the premium price tag. Every GYES product undergoes rigorous testing and strict quality control, ensuring it is both technically excellent and field-ready.

OUR VALUES

The values of GYES Firearms are grounded in a commitment to excellence, user-centric design, reliability, and innovation. Each principle underscores our mission to deliver premium firearms that meet the highest standards in the industry while remaining accessible to a wider audience:

**USER ORIENTED
INNOVATION**

**PRECISION
CRAFTSMANSHIP**

**UNWAVERING
RELIABILITY**

PRODUCTION PROCESS AND QUALITY CONTROL

END-TO-END IN-HOUSE PRODUCTION

At GYES, we oversee every stage of production in-house—from design and steel part manufacturing to assembly—ensuring consistency and precision throughout the entire process.

RIGOROUS STANDARDS AT EVERY STAGE

Our commitment goes beyond craftsmanship. Each product undergoes meticulous checks at every stage, enabling us to meet and exceed industry standards.

QUALITY ASSURANCE

CERTIFIED PRODUCTION PROCESSES

Our production processes are fully compliant with the ISO 9001:2015 Quality Management System and relevant industry standards.

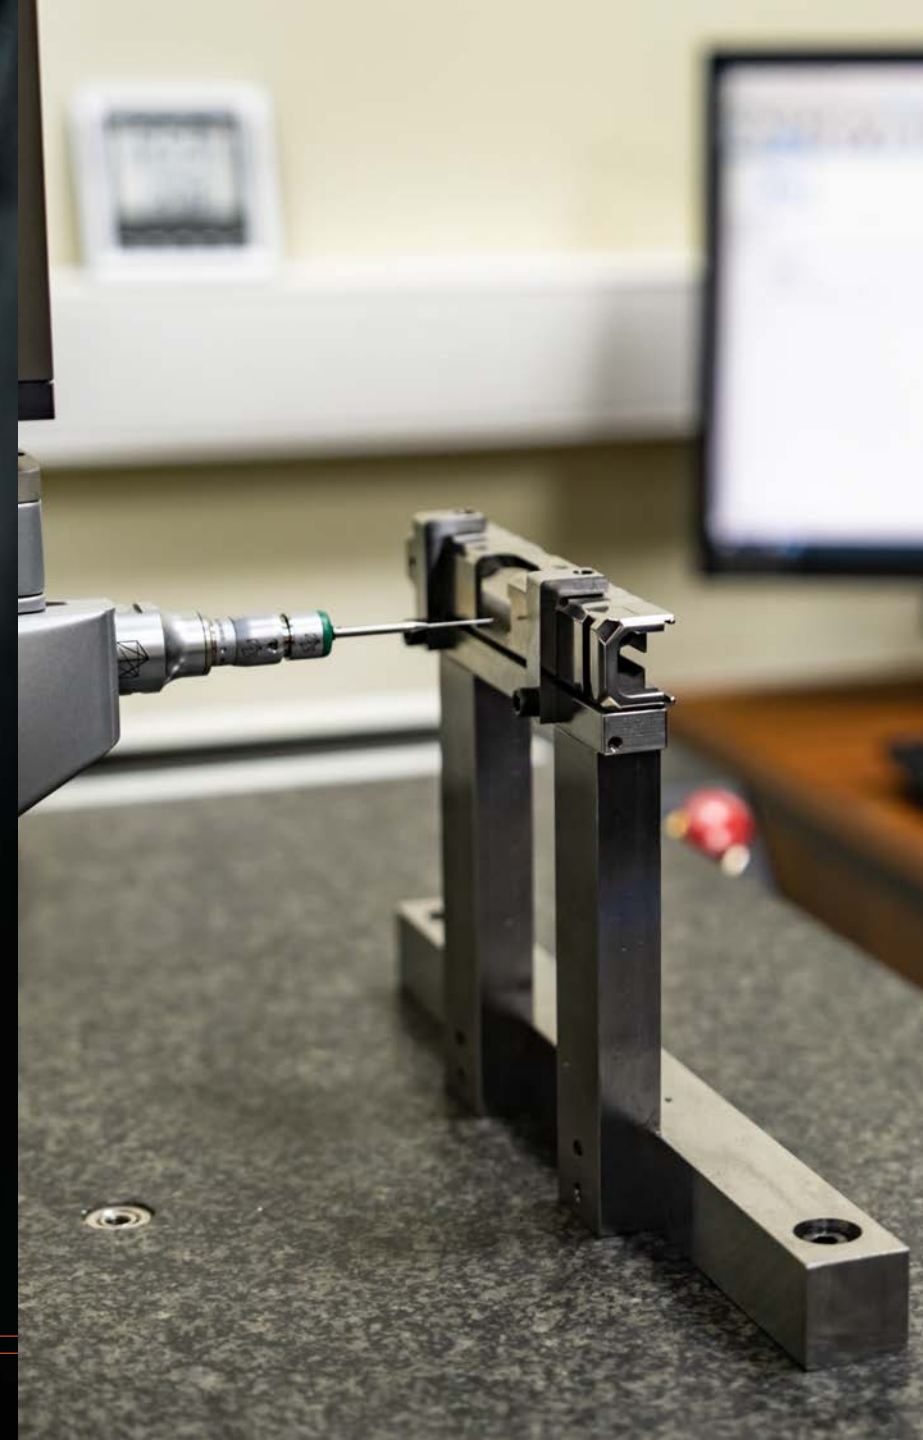

COLLABORATION WITH LEADING SUPPLIERS

Our suppliers are carefully selected from the most reliable names in the industry. Every component is evaluated for traceability at each stage of production and inspected to meet the highest material standards in the sector.

STATE-OF-THE-ART CONTROL SYSTEMS

Digital monitoring and control systems on our production lines ensure precision throughout all processes.

GYES[®]

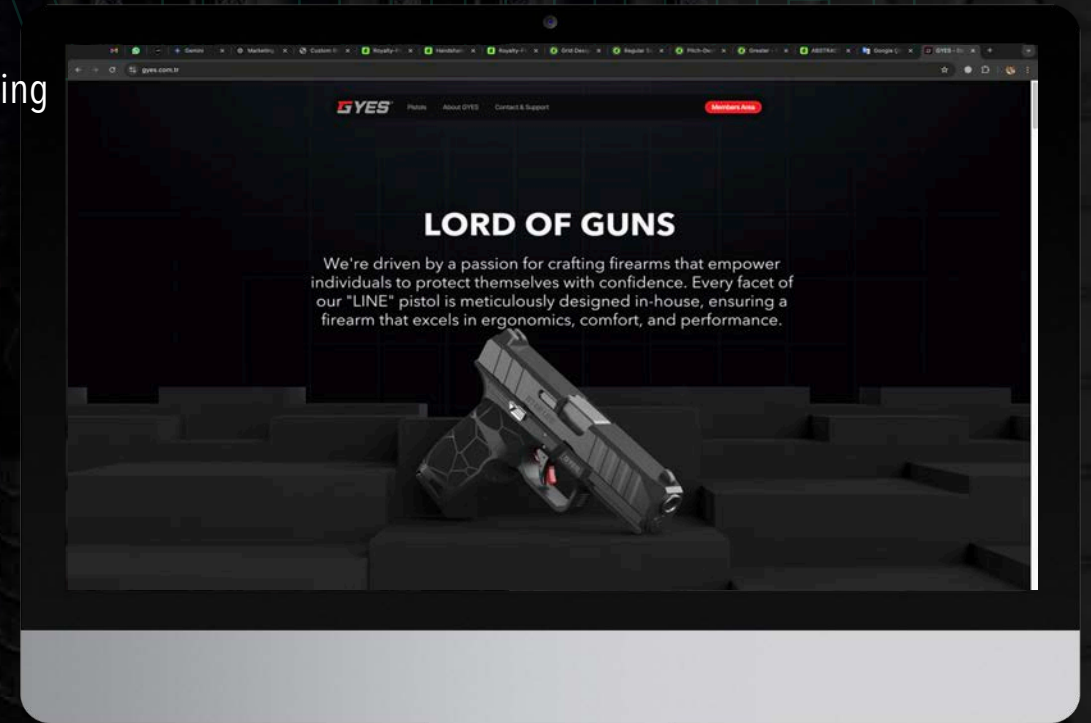

CUSTOMER FOCUS AND EXCLUSIVE ACCESS

PERSONALIZED ONLINE EXPERIENCE

Through my.gyes.com.tr, users can register their products by serial number, gaining access to a personal panel designed for their unique needs.

EXCLUSIVE RESOURCES AND SUPPORT

With access to user manuals, product videos, and compatible accessories, our customers can maximize their GYES experience and get the most from their products.

PERSONALIZED SUPPORT THROUGH MY.GYES.COM.TR

- **ENHANCED PRODUCT SUPPORT**

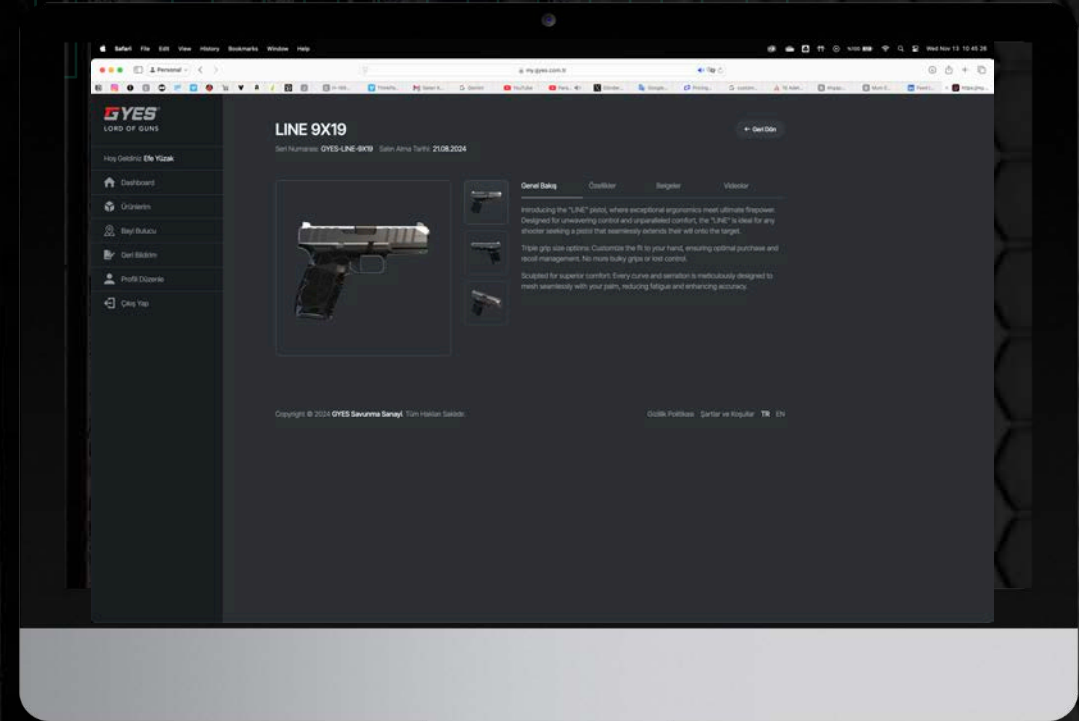

my.gyes.com.tr provides direct access to service options, maintenance tips, and troubleshooting guides tailored to each user's model.

- **PERSONALIZED DASHBOARD**

By registering their product serial number, users gain a unique dashboard that keeps all relevant information and resources in one convenient place.

- **INTEGRATED DEALER LOCATOR**

The Integrated Dealer Locator helps users find authorized dealers near them quickly and easily.
